**Breast Expert Panel
Roundtable on Complication
Management**

Rhinoplasty Expert Panel

**SOAP Abstracts Panel & Best
Abstract Award:
Introducing a winning prize for
the first time at SOAP**

IMC Global Microsurgery Course

**For the first time with online
participation**

**2 Aesthetic Days for Plastic
Surgeons & Dermatologists: Two
disciplines - One Vision - United**

**Dedicated Program for ENT &
Maxillofacial Surgeons**

*We look forward to
welcoming you to Bremen
for this extraordinary
gathering - it's an event you
won't want to miss!*

Prof. Dr. C. Can Cedidi
Congress President

The 8th SOAP 2026: A New Version. A New Era.

The Future of Plastic Surgery Begins Here.

Following the tremendous success of our SOAP Meeting – Summer Edition 2025, we are thrilled to invite you to the 8th SOAP Meeting – Winter Edition 2026, with the exceptional charm of the **Bremen Christmas Market**, while stepping into the future of Plastic Surgery in combination with aesthetic treatments.

THE FUTURE IS NOW

The SOAP-Congress has garnered a reputation as one of the premier live surgery meetings in the field of Aesthetic Plastic Surgery worldwide.

However, SOAP 2026 with its new version will mark the dawn of a new era in Aesthetic Plastic Surgery, where innovation meets intelligence and opens its doors for more interdisciplinary.

Experience the transformative fusion of advanced surgical artistry, AI-driven innovation, and next-generation treatment strategies shaping the future of our field.

SOAP 2026 will deliver an unprecedented 4-day journey presented by an elite international faculty.

A WORLD-CLASS EXPERIENCE FOR ALL

Witness live surgeries streamed directly from our operating theatre featuring Facial Plastic Surgery, Breast Surgery, and Exceptional Techniques — performed by leading experts from around the globe.

Engage directly with surgeons, dermatologists and aesthetic experts, ask questions in real time, and be part of the conversation defining the next frontier of Plastic Surgery.

"We combine plastic surgery with aesthetic treatments to care for our patients on both a major and minor scale, complementing surgical procedures with minimally invasive techniques to achieve optimal results. Interdisciplinary and forward-thinking, we look beyond conventional boundaries as we take the next step into the future."

COURSE 1

SOAP - Microsurgery Masterclass Training Course

10:00 - 12:30

IMC (International Course on Microsurgery) and SOAP are proud to join forces for the first time to launch a unique Microsurgery Training and Certification Program at SOAP 2026 in Bremen.

Designed for microsurgeons who want to further develop their expertise, this program offers a structured and standardized training pathway combined with international certification.

Participants will have the opportunity to strengthen their clinical decision-making skills, exchange knowledge with leading international experts, and connect with colleagues from the global microsurgery community.

Course Highlights

Enjoy an interactive learning experience with international microsurgery experts, combining 10 focused lectures, expert discussions, and a hands-on case-based assessment.

Participants will evaluate selected clinical cases and images, make their own decisions, and compare their approach with the international expert faculty.

How would you approach the case?

Which option would you choose?

Compare your decisions with those of our international expert faculty and gain new perspectives on microsurgical approaches.

Successful participants will receive a joint IMC certification at SOAP 2026.

Secure Your Place

To ensure an intensive and highly interactive learning environment, participation is strictly limited to 25 attendees.

Moderators: C. Can Cedidi, Milomir Ninkovic

Speakers: Eva-Maria Baur, Cenk Demirdöver, Stefan Handstein, Raymund E. Horch, Ahmed Khashaba, Mike Ruettermann, Christine Radtke & Uwe von Fritschen

IMC - Courses & Special Course

Saturday, December 5, 2026 | Room Holler 1

COURSE 2

SPECIAL COURSE: LIPOSUCTION

12.45 - 14.15

Liposuction is a cosmetic surgical procedure that removes excess fat to improve body contour. This course covers patient assessment, risk factors, surgical techniques, postoperative management, and potential complications. Explore the latest approaches to **female** and **male** liposculpture, including high-definition body contouring, ultrasound-guided muscle fat grafting for masculine definition, and the management of excess skin following body contouring. Supported by clinical cases, surgical videos, and interactive discussion.

**Ahmed Abdelaziz
& Amir Farhang
Gharagozlou**

Seats are

Workshop

Meet the Expert - COURSES

Saturday, December 5, 2026 | Room Holler 2

MEET 1

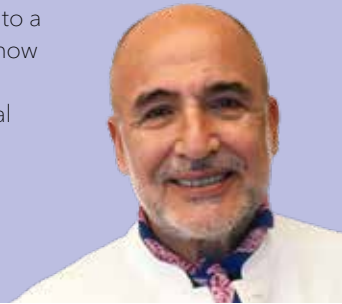

FACELIFT SURGERY "3 REGIONS - 3 LAYERS CONCEPT"

9.30 - 11.00

In this course, Dr. Eren will explain his concept of facial rejuvenation through surgery, which he has been applying for 20 years, with all the details, tips, and tricks. He will demonstrate his "3 Regions 3 Layers concept" – organic facelift (without any additives) – which treats the face in 3 regions and different planes, reconstructing the aging face (returning to a youthful and vibrant appearance). He will show why and how the mid-face, the most important area of this concept, can be permanently surgically treated in the subperiosteal plane at any age.

He will demonstrate his facelift concept step by step with videos and pictures, focusing on long-term results.

Serdar Eren

MEET 2A

PRP - UPDATE FOR 2027

11.00 - 11.45

There are various methods for processing whole blood into different blood-derived products, including Platelet-Rich Plasma (PRP), Platelet-Poor Plasma (PPP), Platelet-Rich Fibrin (PRF), Leukocyte-Rich PRP (L-PRP), Leukocyte-Poor PRP (P-PRP), Injectable PRF (i-PRF), and Concentrated Growth Factors (CGF).

Prof. Prantl reviews the available preparation techniques, their biological properties, and current clinical applications. Different approaches and indications are presented based on the best available scientific evidence.

Lukas Prantl

Meet the Expert - COURSES

Saturday, December 5, 2026 | Room Holler 2

MEET 2B

LIPOFILLING

11.50 - 12.35

What you essentially need to know when starting with fat grafting.

There are many protocols and devices available, and they certainly work very well. However, we need to start somewhere. The CELT protocol is the result of more than 20 years of clinical experience, fundamental research and continuous refinement of the technique.

CELT (Cleaned and Enriched Lipid Tissue) and CELTPLUS (Cleaned and Enriched Lipid Tissue Purified Long-lasting Ultra-concentrated Supergraft) represent advancements in fat grafting techniques, ensuring minimal manipulation and preserving the biological integrity of the graft.

Step-by-step instructions!

Lukas Prantl

MEET 3

BREAST AUGMENTATION

12.45 - 14.15

Happy Patient

Patient's wish vs. surgeon's preference.

Different techniques in breast augmentation, what's the way to go for a happy patient?

My strategy in selection, technique and implant choice

Matthias Aust

Aesthetics in the Focus - LIVE

Saturday, December 5, 2026 | Room Roland

WORKSHOP 1

ESWT (EXTRACORPOREAL SHOCKWAVE THERAPY) IN PLASTIC, AESTHETIC & RECONSTRUCTIVE SURGERY

9.30 - 10.15

This workshop highlights the role of extracorporeal shockwave therapy (ESWT) as an innovative adjunct in plastic, aesthetic, and reconstructive surgery. It focuses on its mechanisms of action, including the stimulation of angiogenesis, tissue regeneration, and improved wound healing. Additionally, it discusses clinical applications, treatment protocols, and my personal experience in integrating ESWT into daily practice for enhanced patient outcomes. Live-Demonstration included!

Karsten Knobloch

WORKSHOP 2

THE ART & EVOLUTION OF INJECTABLES - FACIAL ANATOMY, SAFE TECHNIQUES AND NATURAL REJUVENATION

10.15 - 11.00

Drawing on his experience with more than 350-450 treated faces, Prof. Samir Ghoraba shares a unique perspective on the evolving world of injectables, facelifts, lip lifts and combined aesthetic procedures. From Cairo to London, Dubai and Kuwait, his work reflects diverse aesthetic ideals, advanced techniques and varying patient expectations.

Today, injectables go far beyond simple volume restoration. A deeper understanding of facial anatomy, combined with safe and effective injection techniques, enables refined contouring, dynamic rejuvenation and highly individualized treatment strategies. This session explores how modern injectables can reverse age-related changes while achieving natural, balanced and sophisticated results.

Samir Ghoraba

Aesthetics in the Focus - LIVE

Saturday, December 5, 2026 | Room Roland

WORKSHOP 3

MASTERCLASS ON ULTRASOUND AND FILLERS

11.00 - 12.30

Meet Dr Peter Velthuis, our go-to ultrasound-master who heads the Cutaneous group. & Dr. Tanja Fischer, who heads on ISAC and 3 private clinics in Berlin/ Potsdam

Ultrasound is becoming an essential tool in aesthetic medicine, allowing physicians to visualize anatomy, identify arteries, monitor filler placement in real time, and manage complications more safely. It can help prevent problems such as intravascular injections or misplaced filler by providing a precise understanding of the individual anatomy before and during treatment. With growing scientific evidence and clinical experience, facial ultrasound is expected to become a standard of care in filler treatments in the coming years. Let's see how it works - LIVE HERE !

Peter Velthuis (ESCAD)
Tanja Fischer (ISAC)

WORKSHOP 4

NANOFAT MICRONEEDLING

12.45 - 13.30

**DGPRÄC**

The "German Society of Plastic, Reconstructive and Aesthetic Surgery" (DGPRÄC) is officially representing more than 1700 German Plastic surgeons both nationally and internationally.

Founded in 1968 the society is officially representing German Plastic Surgery in politics and science. Only surgeons holding the German title "Specialist for Plastic and Aesthetic Surgery" or "Specialist for Plastic Surgery" are qualified for membership. Doctors in training may apply for "associate membership". (Endorsement)

**TPRED**

The mission of the Turkish Society of Plastic Reconstructive, and Aesthetic Surgery is to provide safe, ethical, efficacious, and the highest quality patient care; to develop and support

the domestic and international education; to promote the fields of Plastic Surgery, including cranio-maxillofacial surgery, orthognathic surgery, microsurgery, hand surgery, trauma surgery, surgery of the congenital anomalies, burns, oncologic surgery, and aesthetic surgery; scientific and clinical research; and to organize scientific and professional activities.

**UMCG**

The University Medical Center Groningen (UMCG) was established in 2005 as a joint activity of the University of Groningen and the Academic Hospital Groningen (AZG). At

present, the UMCG is one of the largest hospitals in the Netherlands and the largest employer in the Northern Netherlands. More than 10,000 employees provide patient care, are involved in medical education and perform cutting-edge scientific research, focused on 'healthy and active ageing'. www.umcg.nl

**IMC**

The International Microsurgery Club (IMC) was established on May 6, 2016.

The aim of the group is to provide a platform for global microsurgeons for the update

of knowledge and information.

**ISAPS**

The International Society of Aesthetic Plastic Surgery (ISAPS) is the world's leading professional body for board-certified aesthetic plastic surgeons. Founded in 1970,

ISAPS membership includes the world's best known and respected reconstructive and aesthetic plastic surgeons in over 100 countries on every continent reflecting the true international mission of the organization. The Society was founded to provide a forum for the interchange of ideas and knowledge for the advancement of aesthetic plastic surgery. www.isaps.org

**ISAC®**

The International Society for Aesthetic Competence (ISAC®) is an independent international medical society dedicated to advancing safety, education and excellence in aesthetic

medicine. Through certified training programmes, scientific collaboration and evidence-based standards, ISAC® supports physicians in delivering safe and high-quality patient care. The society promotes continuous professional development, international knowledge exchange and public awareness, while encouraging best practice in minimally invasive aesthetic treatments. By fostering education, research and global cooperation, ISAC® contributes to raising standards and strengthening patient confidence in aesthetic medicine worldwide.

**ESCAD**

The European Society for Cosmetic and Aesthetic Dermatology (ESCAD) is an independent, nonprofit European professional society dedicated to cosmetic and aesthetic dermatology. It was founded in 1997 to provide a scientific platform for dermatologists and researchers in the fields of skin aging, cosmetics, and aesthetic therapies. Through its members, the society also actively promotes its international focus.

ESCAD is committed to promoting research, continuing education, and high-quality standards in aesthetic dermatology. Its key activities include scientific conferences, webinars, continuing education courses, and close collaboration with the European Academy of Dermatology and Venereology.

**Cairo FACE**

Cairo FACE World Summit is a premier global conference and exhibition dedicated to advancing the science and practice of facial aesthetics. Bringing together renowned

experts, practitioners, and researchers from around the world, Cairo FACE provides a platform for sharing knowledge, exploring innovations, and mastering the latest techniques in facial aesthetics. With a commitment to excellence, our summit is where the brightest minds in the field come together to push boundaries, refine skills, and elevate standards in aesthetic medicine. www.cairoface.com

**MIPSS**

This event offers two and a half days of live surgeries and in-depth presentations across eight scientific panels, designed to foster continuous and direct exchange between faculty and attendees.

To preserve the interactive, workshop-like nature of the event, attendance is capped at 190 participants.

The scientific program once again boasts an impressive array of internationally recognized speakers, covering an expansive range of topics including plastic, aesthetic, and transgender surgery, non-surgical treatments, practice management, optimization, and marketing.

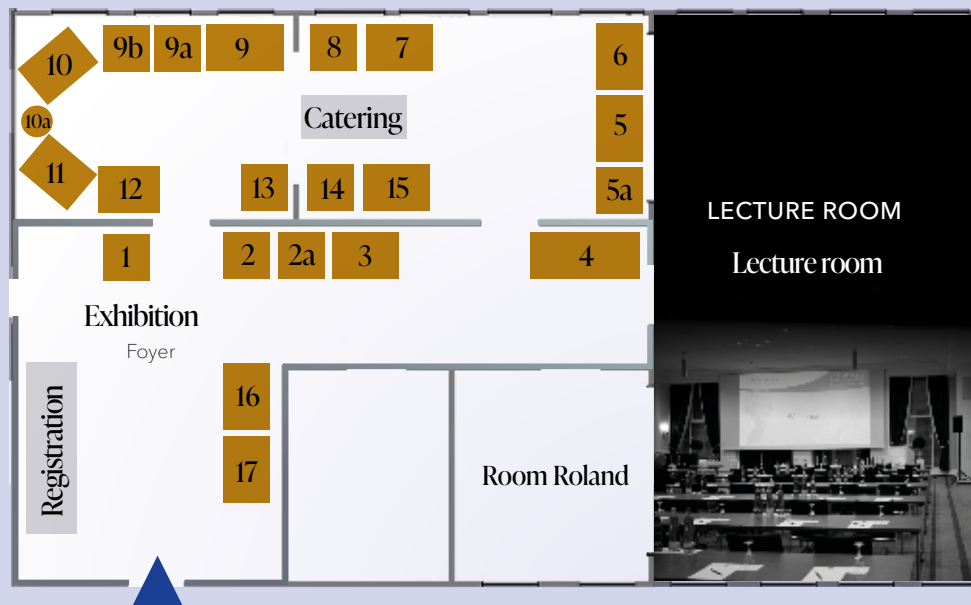

www.mipss.eu

**Kolkhida**

The International Congress on Plastic Surgery and Dermatology, Kolkhida is one of the largest conferences in the Caucasian region. Founded in 2006, it has been gathering

international faculties and attendee doctors from around the world ever since. The Kolkhida Congress offers educational and scientific sessions, as well as an exhibition area featuring leading brands in the aesthetic field. Event is dedicated to transfer education and expose the contemporary approaches of aesthetic medicine from all over the world. The Congress unites specialists of a global scale in plastic surgery, dermatology, and other fields of aesthetic medicine. Our goal is to share experiences and gathering people, ideas, and advice. Attendees can gain expert insights into the most up-to-date techniques practiced by top professionals, including sessions led by world-class plastic surgeons, dermatologists, and aesthetic physicians. www.kolkhida.org
